Indeed, if we had consulted our interest, according to our assailants, we should have taken the most extreme shoot, have trotted along with every varying pace of public sentiment, and have sacrificed the people and our own conscience, by veering with tach shift of current prejudice. We rather think it will come round all right in the long run.

Thus is the spiris of the leveler using the cant of the demagogue. A man may be an upright ass, or he may be employed as a scavenger, neither of which circumstance seems to qualify him for office or ends whrm with any especial honor or distinction. If the Republican means that no housest employment is diagraceful, we allow its truth; but to say that everything is honorable, because it is honest, is an absurdity. The killing of Mr. Lowny's goats at Eikton, as detailed by a correspondent of the Louisville Commercial, was a very sad affair. The killing could only have been done by some malicious person, and is doubtless considered by the community in which it was done, as it is by us, in no done by some malicious person, and is doubtless considered by the community in which it was done, as it is by us, in no other light than that of a mean act, which ought to be properly punished if the offender can be reached by law or public opinion. If Mr. Lower is as seriously discominented. offender can be reached by law or public opinion. If Mr. Lowny is as seriously discomiorated as we are told we give him all possible condolement. So far there is nothing to laugh about. But when the Radical organ, in its baste to trump up charges sgainst the mass and body of the people, elevates this nasty little bit of individual meanness into a grave outrage, a partisan crime, a public event, calling for little less than troops and martial law, and having nothing but political significance in it, we are disposed to let the risibles have their own way and explode as much have their own way and explode as much as they please. Mr. Lowny will excuse us; but—really—in spite of our sympathy -we cannot invest him with the crown of leyal martyrdom.

Holden and his Policy.

The hideous details of HOLDEN'S foray upon the conservative voters of North Carolina have, for weeks, filled nearly as many in the New York papers as the columns in the New York papers as the exerting news from Europe. Early in May a Tribune correspondent interviewed the Radical Senators from that State, and disorganization as a pretext for declaring the Radical nomination for martial law, inaugurating a reign of terror, and carrying the elections by actual vio-

ments dependent for existence on his will rather than the will of the local population. It cannot be disguised that he needs and must rely on such governments both for renomination and re-election. Under his administration the Republican party in the Borth is losing States, and but for his power to perpetuate the necessity which compelled them to take him at first they would eladly drop him. As for the

At dark on last Saturday evening, as the train on the Jackson railread came to Weston's sawmilla, one humbered and forty miles from New Orleans, it was switched of, mailtand the same of the same of the way to be trained to the last of the cloudly it is supposed. As soon as the engineer discovered the misplacement he blew the rest of the way to be the way to be the way to be the same of the way to the way to be recorded. As it was, the cogies and tender were damaged, and a youth named Robert Kennedy, the only support of a widowed mother, who had the privilege of selling newspapers, periodicals, etc., on the trains, was killed instantly. He was in the baggage ear when the whistio blew, and seems to have rushed to put down the brake, as both hands were grasping it when he was found. Their prompt acceptance of the Fit-teenth amendment as a final settlement of the political agitation in regard to the status of the negro race was followed by a victory for the New York Democracy which filled the Radical leaders, and especially the protectionists and treasury-caters, with dismay. With the actilement of the negro question on that basis, the Radical organization stands funcius officio—dissolved by the removal of the only bond of union among its elements. Home cte, on the trains, was killed instantly. He was in the baggee car when the whiste blew, and seems to have rushed to put down the brake, as both hands were grasping it when he was found.

There will be two gentlemen of color in the next Congress. One is an ex-barber and the other a soi-disant cook. Now, we suggest to these distinguished gentlemen, that when they enter the House they set a good example, by abjuring the West Point cadetahip traffic and leaving peasion frauds alone. They can make more and in an honester way by a combination of hair-splitting and hair-dressing. Congress and cooking, and will be patronized by the great body of their brother members.

A correspondent of the Cincinnati Times says that some of the papers which are most active and persistent in their abuse of the Courses Journal are made up almost entirely of extracts from the Courses, Journal, even using its elimination stands framed by the only bond of union among its elements. Upon all other questions the party is hopelessly divided. To maintain its unity and wield its former power in behalf of the protectionists and consolidationists, the negro or farme. In the latter form it will fail to draw," as the New York Times has just informed Senatur Monrox. As a living question it can be resurrected by the action of the Pemocrats alone. Hence the resort to Holder's expedient for obtaining court-martial testimony and court-martial decisions showing the endisorder.

are most active and persistent are made up almost entrely of extracts from the Counten-Journal, even using its editorial assaults upon the Radicals without credit as original editorial matter of their own, side by side with paragraphs denouncing the Counten-Journal as a Radical, and then this simple correspondent innother this si cently saks, "Is this not a little curious."

We answer that it is by no means curious. The habit of abusing those to whom we are most Indebted is as common and as universal as ingrattude itself and as old as human nature.

We have published from all of the great Democratic organs in the North articles showing the position of the National Democracy. This we have done not so much out of a conscious need of a substantial backing as for the purpose of informing our readers concerning the present appect of the political situation. That we are in-perfect accord with the organization which we have the honor to represent is simply a matter of course. We could have no interest in any other direction.

lican party itself.

Here then we have a key to the position of the Northern press on Holder's measures. They are denounced without stint by the Democratic and non-partisan press and even by the moderate Republican journals. They are nowhere defended or extenuated save as extreme measures necessary for the extinuation of secret organizations banded for war upon negroes and for the nullification of the right of suffrage

fairs exists which can justify his presen measures, but the mere facts that he dare to hangurate them, that he obtains a pow efful outside support, and that he has the means to fabricate his own apparent justi cation, should teach the Southern people that the organization of secret societies and all forms of agitation against the negro as a citizen, can only furnish that very po-litical capital which alone is used or ear he used to units and wield the collitical be used to unite and wield the politics power of the North against the return surdity. The occupation of cook and barber, for example, can not certainly be a matter of behor. To say that they are is to war with nature and custom. They should not be oppressed in any way; but they should not be preferred for office on account of their calling. A man may even have a genius for cooking and be a chief is been evidence that the cooking and be a chief it is borne out by the political attitude of the Southern people. A Card.

[To the Editor of the Courier-Journal.]
In your paper of to-day appears as anonymous letter, over the signature of "A Friend to the Publick," in which my character is assailed. Let me say through your columns, for the benefit of "A Friend to the Publick," that the statements contained in his letter are false—a false as his pretensions to be a friend of the public. Said letter is a tissue of falsehood from beginning to end and the author a liar, a scoundrel, and a coward. His caulous to cal men is superficions. I am known by cost men perhaps as well as he is, and as to cutting my coal face thous, I do not, think there is any one in the vicinity of my facet meen enough to site prince such a thing account this skulking, Jritg scoundrel, who, I doubt not, is mean enough to site pin at the back window of a wire ow women's from house and steal the signor of her cloth, but too big a coward to execute his desires.

RIOT AT HARRODSBURG.

From a gentleman with strives, in a captron Extraobluct. Xp., on restardity, we tears the following particulars of a bloody start in that town on Monday 1881.

A large number of negroes were in the town, and all of them were voting the Radical toek. White Radicals were as the polls and challenged every pomorraity roter. The election passed of quietly until about 5 o'clock in the afternoon, when a difficulty store between a young man named 5. B. P. Lawyerce and a teero. They engaged in a hand to band fight, and a short distance from the C.art-house Lawrence shot the egge and then entil st farcat, nearly severing his head from his body, tailing him instantly. The fight created great excitatence, and in a short dime about 30 hearts, all the store of the corrections, collected in thelytothy of the course house, and one of them shot Lawrence through the body, inflicting a wound from which he died instantly. A shot fired by the negroes struck a young man, son of Mr. Green Johnson, who was atting near the bank, and who had taken no part in the sfirst, killing his instantly. W. H. LEXINOTOR, RT., AUZ. 3.—A Diody rice cocurred at Harrodsburg. About four o'clock Nonday afternoon, in front of the court-house, the
place of voting, where there were assembled a
large crowd of negroes, a fight took place between a white man by the name of Peter Lawrence and a negro. In which both were killed.
This, it seems, was the commencement of a general fight between whites and blacks, in which
freatun were freely used, and quites a number on
both aides killed and wounded, the fight insting
about half an hour. The following whites
were wounded: Johnson, haw kins and Braddhaw,

and some twenty wounded. The occurrence is
much to be depicred, but was hardly avoidable
sooner or later, as the Insolence and initialistions of the negroes, naturally quite and peace

whites, was unbearable.

Much dissatisfaction is expressed by a fumber
of conservative Radicals in this district at the
actions of some of the leaders of the party in
thus arming negroes segiont the whites. Quite
a number voted the Democratic ticket and converts are raut ally coming over.
